

Jabez uncle

Jabez died in 1889, there was an inquest but the coroners records do not appear to be available. Has anybody any knowledge of any for that time? HALS does not appear to have his name in their newspaper index so will have to wait until I next go to Hertford to try and find the inquest in the paper. The whole family seem to have been characters, is there anybody else researching the Uncle line in any way?
